

PROFESSIONAL LIABILITY

As professionals, we understand the challenges our colleagues face everyday in serving the needs of their clients and patients. Every professional must stay current as to changes in the laws and standards of practice within his or her profession. Unfortunately, even the most skilled and diligent professionals are not immune from claims of negligence, malpractice or Regulatory Board actions.

We are aware of the stress and potential personal and professional damage these types of claims can produce. Our attorneys have a broad range of experience protecting clients and their practices from these claims, offering preventive counseling when issues arise, and representing them before State Regulatory Boards and in state or federal court when necessary. Our clients include:

- Accountants;
- Attorneys;
- Engineers;
- Insurance Agents;
- Insurance Brokers;
- Medical Doctors;
- Pharmacists
- Surveyors; and
- Trustees

In addition to our litigation experience, our attorneys regularly contribute articles to journals and publications regarding laws governing professional practice and professional liability, and routinely lecture on these topics to various professional groups.
